

BUSINESS COMPUTER ACCOUNTING

ASSOCIATE OF APPLIED SCIENCE DEGREE

The Associate of Applied Science Degree in Business Computer Accounting is designed to prepare students for entry-level accounting positions in private or public accounting. Graduates of this program will be able to create, maintain, and provide financial information for many different organizational needs. Graduates will have the ability to compile and communicate accounting information for the purposes of planning, control, analysis, performance evaluation, and various other internal and external uses. Graduates will be qualified to work in general accounting, budgeting, cost accounting, and as paraprofessionals in public accounting.

Program Objectives:

Upon completion of this program, the graduate will be able to:

1. prepare the financial statements of a business enterprise and effectively communicate this information.
2. accumulate cost information for business enterprises and provide information for management decision-making.
3. communicate financial data and reports to management using accounting-based information technology.
4. identify types of costs incurred and their impact upon the success of the enterprise in achieving business objectives.
5. prepare financial reports as required to monitor, control, and evaluate performance in meeting enterprise objectives.

Admission Requirements:

All candidates for admission must pass the College's entrance examination requirements. Each candidate for admission is considered individually on merit and potential.

Graduation Requirements:

A grade of "C" or better must be achieved in all courses to be eligible to graduate. The department assessment process must be satisfactorily completed.
